# GenMonitor

## Maintenance Program

Our **GenMonitor** Maintenance Program takes the responsibility of **maintenance off your shoulders**. Our online management and monitoring allows us to track the health of your generator with **real-time reports**.

For a **low monthly fee**, you can enjoy the reliability and convenience of our GenMonitor Program and make sure your **generator is ready when required**.

- **Annual Maintenance** (\$325 Value)
- **Multi Point Inspection** Including Transfer Switch  
(Required to maintain an active warranty on your generator)
- **Cellular based** vs WiFi (WiFi signals commonly drop with power outages)
- **Full Time Dedicated Monitoring** Department
- **VIP Status**
  - 24/7 365 Service Eligibility (including holidays)
  - Priority Scheduling In Emergency
  - Discounted Services

# 14kW Generac Guardian

One of the smallest units offered by Generator Supercenter, the 14kW Guardian Series is an excellent option for smaller homes, and managed solutions.<sup>t</sup>

## Installation Includes:

- 200 amp ATS w/service disconnect
- Precast Concrete Pad
- Moving Positioning
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Up to 1 Delay Module
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$11,670**  
plus tax

<sup>t</sup> Shown without optional skirt, skirt available \$200.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 18kW Generac Guardian

One of the smallest units offered by Generator Supercenter, the 18kW Guardian Series is an excellent option for smaller homes, and managed solutions.<sup>†</sup>

• TURNKEY INSTALLATION.  
As low as\*  
**\$141/month\***  
• TURNKEY INSTALLATION.

## Installation Includes:

- 200 amp ATS w/service disconnect
- Precast Concrete Pad
- Moving Positioning
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Up to 1 Delay Module
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$12,550**  
plus tax

<sup>†</sup> Shown without optional skirt, skirt available \$200.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 22kW

## Generac Guardian

One of the most popular generators offered, the 22kW Guardian Series is an air cooled unit featuring an innovative design providing efficient power in a smaller package.<sup>t</sup>

• TURNKEY INSTALLATION.  
As low as\*  
**\$150/month\***  
• TURNKEY INSTALLATION.

### Installation Includes:

- 200 amp ATS w/service disconnect
- Precast Concrete Pad
- Moving Positioning
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Up to 1 Delay Module
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$13,410**  
plus tax

<sup>t</sup> Shown without optional skirt, skirt available \$200.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 24kW Generac Guardian

The 24kW is the most popular air cooled generator in the Generac Guardian Series, since its release. The 24kW combines size with efficiency for a variety of homes.<sup>t</sup>

• TURNKEY INSTALLATION.  
As low as\*  
**\$160/month\***  
• TURNKEY INSTALLATION.

## Installation Includes:

- 200 amp ATS w/service disconnect
- Precast Concrete Pad
- Moving Positioning
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Up to 1 Delay Module
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$14,180**  
plus tax

<sup>t</sup> Shown without optional skirt, skirt available \$200.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 26kW

## Generac Guardian

The 26kW is the largest air cooled generator in Generac Guardian Series. Featuring the most power in its class, the 26kW combines the smaller size with efficient power, and is an option for both whole home and managed solutions depending on electrical load.<sup>t</sup>

### Installation Includes:

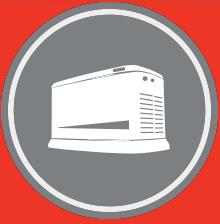

- 200 amp ATS w/service disconnect
- Precast Concrete Pad
- Moving Positioning
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Up to 1 Delay Module
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$14,990**  
plus tax

<sup>t</sup> Shown without optional skirt, skirt available \$200.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 40kW

## Generac Protector

One of the most powerful liquid cooled generators on the market today, the 40kW QS Protector Series standby generator packs more power into a smaller footprint. Featuring best-in-class power and quality and cutting-edge intuitive controls make this unit a leader within the market.

• TURNKEY INSTALLATION.  
• As low as\*  
**\$340/month\***  
• TURNKEY INSTALLATION.

### Installation Includes:

- 200 amp ATS w/service disconnect
- 4.5L 4 Cylinder Engine (1800 rpm)
- Liquid Cooled
- Generac GenPad
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$30,230**  
plus tax

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 48kW

## Generac Protector

A purpose built, efficient and powerful generator, the Generac 48kW packs more power into a smaller footprint, while delivering the power and efficiency to allow you to continue living life comfortably and without interruption.

### Installation Includes:

- 200 amp ATS w/service disconnect
- 4.5L 4 Cylinder Engine (1800 rpm)
- Liquid Cooled
- Precast Concrete Pad
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$33,250**

**\$374/month\***  
• TURNKEY INSTALLATION.

\* With Approximately 10% down. Gas and Electric over 20ft may incur additional fees along with permits and additional materials when needed. Credit Card orders will incur a 3% convenience fee.

# 60kW

## Generac Protector

Automatic backup power for large and custom homes. The efficient and powerful Generac 60kW generator is strong and dependable with the capability of handling days of use at a time with no refueling. All while delivering the power and efficiency to allow you to continue living life comfortably and without interruption.

### Installation Includes:

- 400 amp ATS w/service disconnect
- 4.5L 4 Cylinder Engine (1800 rpm)
- Liquid Cooled
- Poured Slab
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

Cash or check **\$41,100**

# 80kW

## Generac Protector

High power automatic backup solution for large and custom homes. The efficient and powerful Generac 80kW generator is strong and dependable with the capability of handling days of use at a time with no refueling, and large applications. The 80kW has the power and efficiency to allow you to continue living life comfortably and without interruption.

### Installation Includes:

- 400 amp ATS w/service disconnect
- 4.5L 4 Cylinder Engine (1800 rpm)
- Liquid Cooled
- Poured Slab
- 20' of Electric
- 20' of Gas
- Battery
- Startup
- Gas Regulator upgrade when required
- 5 Year Limited Warranty

# How it Works

## Backup power options

Generators bring power to the powerless in times of trouble. A standby generator is a backup power solution that switches on automatically if you experience a power outage. Depending on your needs, the generator can power part or all of your home.

*Power is automatically restored in 20 seconds.*

**1** Utility Power is lost

**2** Generator detects a problem

**3** Power transferred through ATS

**4** Electricity is automatically restored

# Meet Your Dedicated Generator Team

## Dedicated Gas Fitter

Licensed gas fitters experienced in the fluid system requirements for whole home generators.

- Each joint is protected with vibration resistant thread sealant
- After all connections are made, the system is checked for any potential leaks

## In-House Licensed Electricians

The benefits of in-house electricians are apparent; We employ highly specialized employees and maintain rigorous standards.

all connections checked for leaks

vibration resistant<sup>TM</sup> thread sealant

## In-House Technicians

We believe that world-class products deserve the highest level of technical support backed by Generac trained professionals. Factory trained, our technicians exemplify our commitment to the finest training in the industry.

# Important Details Often Unseen

## Delay Management

No two homes are the same. Your solution will be designed to meet your needs depending on demand. Your install will be unique designed based on your home, ensuring you get the most possible out of your generator.

## Quality Materials, Every time.

Copper is considered the “gold standard” in the world of standby generators. We use heavy gauge copper which is safer and more conductive.

# Stay Protected

## Gen Surge

### Protection against volatile utility power

The first line of defense against electrical surges and spikes originating from utility power lines. These surges and spikes can cause damage to the transformer transfer switch, generator and whole house. Once installed the Surge Protector provides robust protection against these unwanted damaging electrical surges.

\$39\*

## Tank Monitoring

Our team of factory certified technicians have years of training and experience to solve any problem your system can experience.

At Generator Supercenter, we offer quick and efficient repairs to a variety of different makes and models.
